

Overview

Tools for thread protection, stabbing alignment and drift checks, selected for the pipe size and thread form.

Construction and Configuration

Quick-release thread protectors use rubber and spring-steel construction with cam-operated release and locking. Stabbing guides assist alignment and protect threads; drift gauges check internal clearance. Listed thread types include BC, LC, STC and WAM; select each size separately.

Selection

Select by equipment model, pipe diameter, rated load or torque, and connection dimensions. Check each size within the same series separately.

Technical Specifications

Tool	Size (in)
Quick-release thread protector	4½、 5、 5½、 6⅝、 7、 7⅝、 8⅝、 9⅝、 10¾、 13⅝、 16、 18⅝、 20、 24
Stabbing guide	2⅝、 2⅞、 3½、 4、 4½、 5、 5½、 6⅝、 7、 7⅝、 8⅝、 9⅝、 10¾、 13⅝、 16、 18⅝、 20、 24
