

Overview

Mud-pump liners with an outer shell and wear-resistant inner sleeve, selected by pump model and bore.

Construction and Configuration

Check liner bore, outside diameter, length, locating surfaces and assembly fits for the pump model. Liners for different pump models are not interchangeable solely because their bores match.

Key Data

| Outer sleeve | Inner sleeve                          |
|--------------|---------------------------------------|
| Carbon steel | High-chromium wear-resistant material |

Selection

Select by equipment model, pipe diameter, rated load or torque, and connection dimensions. Check each size within the same series separately.
