

Overview

Fluid-end service components including flanges, retainers, wear plates, covers and guides, matched individually to the pump.

Construction and Configuration

Materials correspond to individual components; the complete group must not be treated as a single material. Select by the matching F, 3NB or other pump model and component drawing number.

Selection

Select by equipment model, pipe diameter, rated load or torque, and connection dimensions. Check each size within the same series separately.

Technical Specifications

Component	Material
Liner flange	45# steel
Cylinder-cover flange	35CrMo
Liner gland	35CrMo
Wear plate	35CrMo, nickel-plated surface
Cylinder cover (top cylinder device)	35CrMo
Plug and crosshead pin	Grade 45 steel
