

Product & Technical Configuration

Overview

Storage vessels for liquids or gases. Select construction and materials for the fluid, pressure, temperature and corrosion conditions in petroleum, chemical, edible-oil and food processes.

Technical Configuration

Item	Configuration
Brand	IKUSE
Stored fluids	Liquids or gases
Material options	Carbon steel, stainless steel, duplex stainless steel, titanium alloys and Hastelloy
Applications	Petroleum, chemical, grain and oil, food, firefighting, transport and metallurgy
Selection criteria	Fluid, capacity, pressure, temperature and corrosion protection
