

Overview

Ceramic-lined components for mud-pump fluid ends, selected by pump model, bore and mounting dimensions.

Construction and Configuration

Select the diameter and length combination for the specific model. The series range does not imply that all combinations are interchangeable.

Key Data

Lining material	Listed size range
Toughened zirconia ceramic	φ150–180 × 310–440 mm

Selection

Select by equipment model, pipe diameter, rated load or torque, and connection dimensions. Check each size within the same series separately.
